

# Armadale Gosnells Landcare Group

## A Success Story

Armadale Gosnells Landcare Group has been working with the Friends of Palomino Reserve for over 2 decades to rehabilitate the Wungong River within Palomino Reserve. With the help of countless volunteers and a strong partnership with the City of Armadale, close to 10 hectares has been rehabilitated. This area now flourishes with wildlife and a wide range of native flora.

Before - The Wungong River "drain" in 1999

After - Now a thriving ecosystem

# Armadale Gosnells Landcare Group

The Armadale Gosnells Landcare Group (AGLG) is a not-for-profit, community led organisation that undertakes landcare projects with a focus on river restoration, bushland management and raising awareness as well as community action on local environmental issues.

Every year we work with thousands of volunteers from our wider community including schools, corporate organisations and other community groups.

## Vision

Our community living and working in harmony with the environment of the upper Canning, Southern and Wungong River catchments.

## Mission

To lead, strengthen and promote ways of addressing degradation of urban catchments and their associated waterways.

**Together**  
we make a difference

## How can you help?

**AGLG are seeking new volunteers to undertake activities such as tree planting and weeding. It's a great way to help the environment, meet new friends and enhance your community.**

- Join us and volunteer at our community Landcare events.
- Help spread the word about Landcare within your community.
- Speak to your local political representatives about locally relevant environmental issues.
- Plant local natives in your garden to attract wildlife and improve biodiversity.
- Install nesting boxes and watering stations in your garden or local bushland.
- Avoid using fertilisers and other pollutants that can enter drains and flow into our precious rivers and wetlands.

## Join our committee

AGLG's committee meets five times per year. It is made up of local community members that provide leadership and passion. Join our committee and take part in guiding the future directions of AGLG.
